

COMMERCIAL BRIEF

Make all your systems work as one connected operation

Every area can keep using the system it needs. ProdTech connects OMS, WMS, TMS, ERPs, logistics operators and external channels so information flows between them **without manual loading or parallel reconciliation**. And where a piece falls short of what the operation demands, we put ours in — data migration included, without stopping the operation.

20+ YEARS IN PRODUCTION	14 COUNTRIES	100+ DEPLOYMENTS	76+ INTEGRATIONS	2.5M+ RECORDS DAILY
-----------------------------------	------------------------	----------------------------	----------------------------	-------------------------------

SIX PIECES, ONE CONNECTED OPERATION

OMS Order management The customer places and tracks the order; the operation sees it whole, from entry to delivery.	WMS Warehouse management A warehouse that runs on data, not paper.	TMS Transportation management From dispatch to delivery, with visibility and costs under control.
Connect ProdTech Connect A single integration point between your systems and every logistics operator	WMS Warehouse app The movement is recorded in the aisle, with the phone's camera as the scanner and no trip back to the office.	TMS Delivery app The day's route sheet, stop by stop, and the delivery closed with its backup.

FIVE CAPABILITIES STANDARD SOFTWARE DOES NOT SHIP WITH

01 Intelligent assistant for the operator	02 Process automation	03 An interface aligned to your brand	04 Language is never the limit	05 Support from an expert team

HOW A PROJECT STARTS

01 Assessment Half an hour with your operations and systems people. We come out with the map of current integrations and what can be unified first.	02 Pilot Two or three operators in a test environment, with your real data, to validate the full circuit before touching production.	03 Rollout Progressive onboarding of the remaining operators and the move to production, with the support team alongside the go-live.

FOOD · AUTOMOTIVE · APPAREL AND RETAIL · LOGISTICS PROVIDERS

Integration assessment, at no cost

Half an hour of your time. We send back in writing what can be unified and in what order, whether you work with us or not.
